COMMISSION MEETS OCT. 17

DENVER, Oct. 9.—The commission appointed by the legislature to study the compensation of the members of the legislature, met today for its first session.

New Daily Through Sleeping Car Service

(Both Standard and Tourist)

Colorado Springs to Omaha & Chicago

via

D. & R. G. and Union Pacific

Enables passengers to take sleeper at Colorado Springs or other D. & R. G. main line points and go through to Chicago without change. Union Pacific trains are electric lighted and equipped used is the best. Greater portion of the UNION PACIFIC line is double tracked between Denver and Chicago. Entire line is protected by Electric Automatic Block Signals. Rails are 90-pound steel. Roadbed is ballasted with Sherman gravel—clean and hard as rock.

For reservations, full information, etc., call on D. & R. G. local agent or address

R. S. Ruble, Assistant General Passenger Agent,
Union Pacific, 941 17th St.
Denver, Colo., Mo.

GERMAN-AMERICANS AT ST. LOUIS NEXT

WASHINGTON, Oct. 9.—The National German-American alliance, which closed its sessions here tonight, will hold its seventh biennial convention in St. Louis in 1912. This was one of the closing actions of the meeting today. At the same time it was recommended that San Francisco be given most favorable consideration for 1913. The business session closed with the election of officers, all of the old ones being re-elected, with the addition of four vice presidents. The officers include: Dr. C. J. Hekman, Philadelphia, president; John Herman, San Francisco, vice president; Herman Weder, Philadelphia, financial secretary; and Adolph Timm, secretary.

The "Dutch treat" will become a thing of universal reality if a resolution offered by Philip Rappaport of Indianapolis, and adopted, can be carried into effect. It called for the presentation to the next convention by the executive committee of the alliance of a practical plan to do away with the custom of treating at public bars. Resolutions adopted today condemn prohibition and urge the restoration of the canteen to military posts and soldiers' homes. A number of resolutions were offered by the committee on personal liberty.

These declared that "blue laws," prohibitory enactments and regulations which dictate what the individual shall eat, drink and wear, and how and when he shall enjoy himself, are being fostered and promoted by mercenary agitators, who, in a movement of organized hypocrisy, disguised in the cloak of the church and the mantle of patriotism, are hurrying through, temperance by causing the clandestine and surreptitious use of strong drinks.

Mayor Samuel Lewis Shank of Indianapolis, who beat a trust in its own game. When it was reported to Mayor Shank that the commission upon a sample of Indianapolis had sent word to the Texas potato growers to stop consignments to the local market so as to boost prices, the mayor dug into his own pocket, had potatoes shipped to his city and sold them plus the freight and the handling. The commission combine have threatened to flood the city with "spuds" and underbid the public, but the mayor said that he was not frightened and would keep up the work.

BORDEN CABINET APPROVED

OTTAWA, Ont., Oct. 9.—Premier Robert L. Borden presented the names of his cabinet to the governor general tonight and received his approval. The new government will be sworn in at noon tomorrow. Mr. Borden is premier and probably Sir Wilfrid Laurier will act as president of the council.

The compromise government follows: Nova Scotia—R. L. Borden, premier; New Brunswick—D. J. Hazen; Quebec—P. F. Pelletier; P. B. Monk; Ontario—Frank Cochrane; W. T. White; George E. Foster; John Reid; Samuel Hughes; Manitoba—W. J. Roche; Saskatchewan—Robert Rodgers; Alberta—John Loughhead; British Columbia—Martin Durrill.

CHICAGO CELEBRATES ANNIVERSARY OF FIRE

CHICAGO, Oct. 9.—Forty years after the morning when Chicago awoke to a scene of ashes and desolation, with most of its business center wiped out by the fire of the night before, the city today commemorated the anniversary with a study of means of fire prevention.

Fire prevention day had been proclaimed by Governor Deneen and Mayor Harrison and all of the city departments contributed in some way to the display. A parade in which the fire and police departments participated with a display of apparatus, was made to recall the disaster of 1871 by devoting a conspicuous place to a woman leading a cow, typifying Mrs. O'Leary and the cow popularly supposed to have started the big fire. In the school the pupils listened to speeches of means of fire protection. A second parade will be given this evening to be followed by a discussion of fire prevention at a banquet.

ORCHARDISTS AGREE TO TAKE \$400,000 DAMAGES

PALISADES, Colo., Oct. 9.—As the result of an all-day conference today between J. B. Miner, resident engineer of the reclamation service and these orchardists whose fruit farms will be damaged by the building of the proposed high line canal, an agreement was reached whereby the orchardists will accept \$400,000 as damages from the government instead of the \$500,000 first asked. The conference was held at the suggestion of Secretary of the Interior Fisher, after his recent tour of the grand valley.

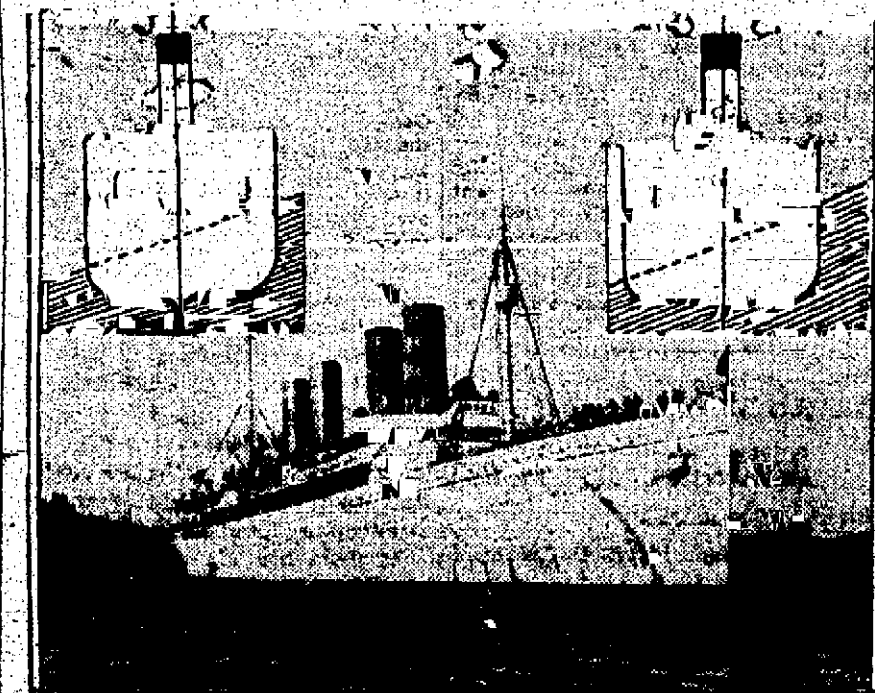

YOURS

Yours for uniformity.
Yours for greatest leavening power.
Yours for never failing results.
Yours for purity.
Yours for economy.
Yours for everything that goes to make up a strictly high grade, ever-dependable baking powder.
That is Calumet. Try it once and note the improvement in your baking. See how much more economical over the high-priced trust brands, how much better than the cheap and big-can kinds.
Calumet is highest in quality—moderate in cost.
Received Highest Award—World's Pure Food Exposition.

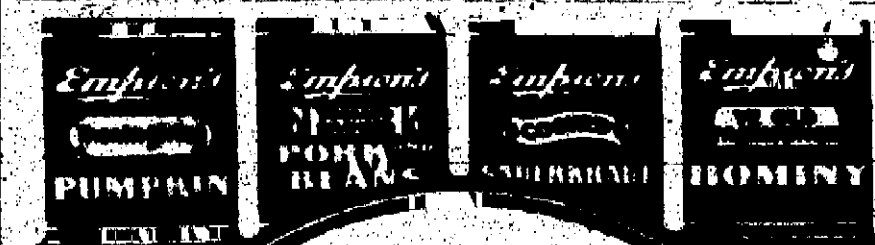

The private fortunes of German subjects have increased, by \$12,500,000,000 within a decade. Workmen's wages throughout Germany have increased on an average by 48 per cent during the last 22 years.

SEASICK PROOF STEAMER ARRIVES.

S. S. VICTORIA LOUISE, EQUIPPED WITH FRANK ANTI-ROLLING TANKS.

New York, Oct. 7.—The first great steamer to be equipped with the Frank anti-rolling tank, the Victoria Louise of the Hamburg-American line, arrived from Hamburg this morning with 531 cabin passengers. In a rough sea this device has reduced the rolling of the steamer from sixteen degrees from the vertical to three degrees, thus insuring comfort to the poorest sailors. The device consists of two U shaped tanks partially filled with water, extending the entire width of the ship, so contrived that the water flows in the opposite direction to the rolling of the vessel. The ship is so equipped it is said to carry its own waves which tend to neutralize its motion and hold the decks in a horizontal position. In the graceful lines and imposing row of stacks of the new arrival the sailors recognized the fleet steamship Deutschland, until recently the holder of the blue ribbon of the sea. The Victoria Louise has been remodeled to sail exclusively as a cruising steamer. Her hull has been painted white, although her four great funnels retain their yellow color. The promenade deck has been extended from one end to the other, a distance of 465 feet, thus affording the largest and most luxurious promenade afloat. A clear deck space is thus provided more than a quarter of a mile in length, covering 23,335 feet. Since the Victoria Louise will carry no freight, her cabins have been made spacious and commodious. The Victoria Louise is undoubtedly the largest and most luxurious cruising steamer in the world. She will make the cruise of eighty days to the Orient in January and in the following November a cruise around the world.

As old fashion and hard frying food, not a bit. Breakfast F.F. or T.H.

REAL EFFECTS OF FLOODS UNKNOWN

DENVER, Oct. 9.—What number of lives were lost, if any, and what will be the approximate damage done in the San Juan district by the recent floods in the Dolores, Rio de Las Animas and Rio Piedra rivers following a series of cloudbursts, is yet unknown. Early reports today, to the effect that three are dead and from 30 to 50 missing, could not be verified tonight because of the interruption of wire communication to Durango. Residents in several towns along these rivers are reported to be threatened with a famine because of the washing out of large sections of the railroad. The situation is worst at Durango and Telluride.

At Telluride arrangements were completed today to freight in supplies from Placerville, 18 miles away. Similar arrangements are being made at Durango. Stage lines are being put into operation between all towns where there is any chance of the roads being found passable. By the washing out of several hundred feet of the Denver & Rio Grande railroad track at Austin, caused by the breaking of Helder reservoir, through pressure of flood waters, fruit growers in the vicinity of Poncha are alarmed at the prospect of not being able to get their late fruit shipments to market. There are 2,000 cars awaiting transportation. Several days will be required to repair the damage.

Little Food in Telluride.
TELLURIDE, Colo., Oct. 9.—A food shortage in this city is threatened as a result of the interruption of railroad traffic, caused by the recent floods. Today the supply of butter and eggs gave out, and the stores of other eatables are running low. A stage service from Telluride to Placerville is handling the passenger traffic. Repair work on the railroad is being pushed and it is expected traffic from here to Montrose will be resumed Saturday.

More serious damage is reported along the railroad line from here to Durango, and traffic probably will be suspended for several weeks.
Helder Reservoir Breaks.
DELTA, Colo., Oct. 9.—One thousand feet of Denver & Rio Grande track was washed out today, and another half-mile covered with dirt and debris, when the Helder reservoir, two miles east of Austin, broke. No loss of life is reported. The most serious inconvenience will result from the interruption of traffic and the necessary delays in shipping about 2,000 cars of fruit from Poncha and other fruit

towns above here. This afternoon a large force of men was put to work clearing and rebuilding the track, and it is expected traffic will be resumed within a few days.

D. & R. C. Reports Damage.
DENVER, Oct. 9.—The Denver and Rio Grande gives out the following figures showing the damage done to its property in southern and southwestern Colorado by the floods which have been raging for the past week.
Lines closed by flood damage are all lines west and south of Chama, N. M.
The total mileage follows:
Chama to Durango, 104.4 miles; Durango to Silverton, 45.2 miles; Durango to Farmington, 48; Durango to Ridgway, 162; Monte Vista to Creede, 51.7. Total, 413.3.
All track closed except that between Monte Vista and Creede is narrow gauge. The damage west of Monte Vista on the standard gauge track is determined definitely. It consisted of one bridge and 150 feet of track washed out. The line between Durango and Ridgway is known as the Rio Grande Southern railroad, a subsidiary of the Denver and Rio Grande.

Lines most seriously damaged:
Lamberton to Durango, 82 miles; Durango to Silverton, 45.2 miles; Durango to Farmington, 48 miles; Rio to Dolores, 36 miles; Monte Vista to Granger, 22.9 miles. Total, 239.1 miles.
Lines reported less damaged: Ridgway to Rico, 66 miles; Vance Junction to Telluride, 8 miles; Dolores to Durango, 50 miles. Total, 134 miles.
One hundred and one miles an hour on an average was the record speed recently attained in an aeroplane by a French aviator; a strong following wind was the cause of his success.

Weak Lungs
We strongly recommend Ayer's Cherry Pectoral. We believe it prevents, protects, soothes. What does your doctor recommend? Take only the medicine he approves. Trust him every time.

"FIXED FOR THE WINTER, SURE ENOUGH!"
Must have ordered coal twice. Well, most likely it's all the better better than no coal at all when the cold wave comes. Are you coal bins full? Mr. Householder? Look a little out! Don't wait till your fingers freeze. Let's have your order now. Sure of quick delivery, too, now when Mr. and Mrs. Everybody want their coal.

CHARLES H. FLETCHER

The Kind You Have Always Bought

In Use For Over 30 Years.

FLAX CROP IS ONLY ONE THAT WENT EXCELLED LAST

WASHINGTON, Oct. 9.—Dry-weather conditions, which prevailed throughout the country earlier in the growing season, abated in September, and the condition of most of the important crops, excepted on October 1, showed improvement. Corn was one-tenth of 1 per cent higher than it was on September 1; potatoes improved 2.1; tobacco 3.4; flax 1.2; apples 1.3; rice declined 1.1.

The effect of hot weather and drought throughout the growing season was shown in the official preliminary estimates of the production of spring wheat, oats and barley. These showed a loss in production over last year's harvest of an aggregate of 201,000,000 bushels. The indicated total production of corn, as figured from the current conditions, will be about 564,000,000 bushels less than last year's crop. Flax is the only important crop that will give a harvest greater than last year.

Preliminary Estimates.

Official preliminary estimates of production of important crops, follow:

Crops	1911	1910
Spring wheat	200,397,000	231,330,000
Winter wheat	453,149,000	481,044,000
All wheat	653,546,000	712,374,000
Oats	873,461,000	1,126,785,000
Barley	145,361,000	162,237,000
Rye	30,877,000	33,039,000
Hay (tons)	16,938,000	20,375,000

The indicated total production of import crops not yet harvested, as shown by their condition on October 1, follows:

Crops	1911	1910
Corn	2,769,248,000	3,128,715,000
Buckwheat	15,899,000	17,239,000
Potatoes	278,551,000	338,811,000
Tobacco (lbs.)	715,445,250	848,349,000
Flax	24,465,300	14,116,000
Rice	22,582,400	23,516,000

FLAX CROP IS ONLY ONE THAT WENT EXCELLED LAST

WASHINGTON, Oct. 9.—Slowly Austin, devastated by flood and fire, is giving up its dead.

Today two unidentified bodies were recovered. One was that of a woman about 40 years old and the other an 8-week-old girl. Immediate burial was imperative. Sixty-four bodies have been recovered and 10 others are missing.

Three young women telephone operators were rewarded for service rendered during and since the flood. In the case of Kathleen Lyon, one of the heroines of the flood, who stuck to her post and flashed warnings of the onrushing waters, the reward was substantial. The telephone company presented her with a gold watch, a check for \$250 and raised her salary. Lena Binkley was given \$100 and Hazel Knapp \$50.

A great amount of work was accomplished in clearing away debris.

TARI EXPECTS

(Continued From Page One.)

Panama canal by July 1, 1913, said that Canada was going to be sorry she had not adopted the reciprocity treaty, and talked for a few minutes about conservation. In speaking of the opening of the Panama canal, the president said he would let the people of Belgium into a little official confidence.

Believes Canada Made Mistake.

"There is one topic," he said, "that I had intended to discuss with you, but our neighbors say the harbor is still a week or two ago, and I need to make it past history. But I think you will agree with me that in doing so they made a mistake, and that had that treaty gone through it would have been a satisfactory result to both countries. No, I think I know a little more on this side than they do on theirs, because we are an older country, and after 100 years of experience it is possible that they will come to take the right view. But whether that be or not, if they don't grow as rapidly as we do and as rapidly as they might have grown, I cannot say it is our fault."

Before leaving the harbor, the president at Bell's hotel, where he was a guest, said to the press that he was a little more on this side than they do on theirs, because we are an older country, and after 100 years of experience it is possible that they will come to take the right view. But whether that be or not, if they don't grow as rapidly as we do and as rapidly as they might have grown, I cannot say it is our fault."

RUSSIAN REFUGEE

(Continued From Page One.)

banks, it was alleged, were counterfeited by Leon. Riverside, Cal.; National Bank; the First National, Tulsa, Okla.; First National of Orange, Cal.; Pasadena, Cal.; National Bank; First National of Williamsport, Pa.; El Centro, Cal.; National Bank of Commerce, Wichita, Kan.; Anglo and London, Paris National of San Francisco; Illinois National of Springfield, Ill.; Elgin County National of Tyrone, Pa.; Crocker National of San Francisco.

Leon also was alleged to have counterfeited the \$10 United States Buffalo note and to have circulated it on the Pacific coast. The national bank notes were circulated principally in Los Angeles, San Francisco, Portland, Ore.; Seattle, Wash.; Chicago and New York.

Had Taken Up Homestead.

VICTORIA, B. C., Oct. 9.—The counterfeiting plant alleged to have been operated by Albert Leon, arrested in New York today, was located two miles from the Indian village of Nootka, on the west coast of Vancouver Island, where Leon had a small cabin in the woods and gave out that he was prospecting and timber cruising.

United States secret service men came to Victoria 10 days ago and went to Nootka, posing as timber buyers. They went to Leon's cabin, which was found deserted. Search revealed a high-class camera, acids and etching plates. No bill of any kind were found.

Leon had taken out preemption papers from the British Columbia government for a homestead of 160 acres, and his cabin was built on his pre-emption.

Had Real Money on Him.

NEW YORK, Oct. 9.—When Leon was arrested the secret service men found on him \$200 in real money and an express money order for \$90. No spurious currency was found and search of his room revealed nothing to connect him with counterfeiting operations. Although he admitted that he knew the men arrested in Chicago, he denied having anything to do with making the notes they are alleged to have passed.

Believe He Was in Denver.

DENVER, Oct. 9.—Albert Leon, arrested in New York on a charge of passing a counterfeit \$10 bill, has, according to local secret service officials, not only been operating in Denver within the last 30 days, but succeeded in victimizing 40 Denver merchants. Leon is accused of passing several thousand dollars worth of counterfeit notes drawn against several San Francisco banks. The secret service men here alleged that Leon has been operating extensively throughout the west.

TURKS NEARING TRIPOLI

TRIPOLI, Oct. 9.—It is reported that 2,000 Turks are 12 hours distant from here under Munir Pasha. It is thought probably they are trying to reach Tunis. The Italian expeditionary force has not yet landed. Everything is quiet in Tripoli.

It is not considered likely the Turks will try to recapture the town as the officers have left their families here.

ROME, Oct. 9.—It is unofficially announced that following the intervention of the German ambassador, the Ottoman government has suspended the order for the expulsion of Italians from Turkey.

BLACK RIVER FLOOD COVERS WHOLE VALLEY

LA CROSSE, Wis., Oct. 9.—The Black River flood, which wiped out the business sections of Black River Falls, today and Saturday, now apris it over the entire Mississippi valley, extending from the Minnesota to the Wisconsin bluffs, by merging with the Black River miles north of here. Thousands of acres are inundated, and thousands of tons of hay have been swept away or ruined.

MINISTER HELD FOR BIGAMY

JOLIET, Ill., Oct. 9.—Following the arrest at Bocher, Ill., today of the Rev. John Herion, formerly of Bolton, England, on charges of bigamy, the police announce that the pastor has

THE REAL "SANS-GENE"

From the London Globe.

Every one knows the washerwoman who was so familiar with Napoleon in 1874. When 19, at the end of the Reign of Terror, she enrolled in a cavalry regiment commanded by one of her uncles and soon acquired the nickname of "Sans-Gené."

Mlle. Sans-Gené fought in Germany with the French and Russian armies, charged at Hohenlinden, took part in the siege of Toulon, was in the Italian, Spanish and Austrian campaigns and fought at Austerlitz and in Russia. During the Hundred Days the emperor conferred the Legion of Honor upon her and she charged at Waterloo for the last time.

With the Restoration she left the army to get married. She was then 39. In the course of her martial career Sans-Gené had five horses shot under her and was wounded eight times in different engagements. She died in hospital in 1881.

MINING MAN HURT WHEN MOTORCYCLE RUNS AWAY

Special to The Gazette.

CRIPPLE CREEK, Oct. 9.—Robert Raine of the Cripple Creek Mining company's staff was seriously injured this morning while riding a motorcycle down Cripple Creek gulch. In a manner rather out of control and the machine went over the rock bank. Raine was found in unconscious condition by L. Lambert, an express driver, and brought to this city. A severe cut in the throat three inches long and a scalp wound were dressed, but Raine is also suffering from slight concussion of the brain.

LA CROSSE, Wis., Oct. 9.—The Black River flood, which wiped out the business sections of Black River Falls, today and Saturday, now apris it over the entire Mississippi valley, extending from the Minnesota to the Wisconsin bluffs, by merging with the Black River miles north of here. Thousands of acres are inundated, and thousands of tons of hay have been swept away or ruined.

Three persons were pushed into the river at Black River Falls by sightseers behind them, and were rescued with difficulty.

At a business men's meeting at Black River Falls, a committee of 11 was chosen to report next Saturday on a location for the new city, the sentiment being that it should be moved to higher ground, and further from the river.

posed to the next legislature will hold its second meeting October 17, in the office of John G. Osgood of the Colorado Fuel and Iron company in Denver. The first meeting was held last Thursday in the office of James Dalrymple, state inspector of coal mines. Owing to the absence of Rep. John F. Pearson, a member, the commission was not organized.

GERMAN-AMERICANS AT ST. LOUIS NEXT

WASHINGTON, Oct. 9.—The National German-American alliance, which closed its sessions here tonight, will hold its seventh annual convention in St. Louis in 1912. This was one of the closing actions of the meeting today. At the same time it was recommended that San Francisco be given most favorable consideration for 1913.

The business session closed with the election of officers, all of the officers being re-elected, with the addition of four vice presidents. The officers include:

Dr. C. J. Hermann, Philadelphia, president; John Hermann, San Francisco, vice president; Herman Weder, Philadelphia, financial secretary; and Adolph Timm, secretary.

The "Dutch treat" will become a thing of universal reality if a resolution offered by Philip Rappaport of Indianapolis, and adopted, can be carried into effect. It called for the presentation to the next convention by the executive committee of the alliance of a practical plan to do away with the custom of treating at public bars.

Resolutions adopted today condemn prohibition and urge the restoration of the custom to military posts and soldiers' homes. A number of resolutions were offered by the committee on personal liberty.

These declared that "blue laws," prohibitory enactments and legislation which dictate what the individual shall eat, drink and wear, and how and when he shall enjoy himself, are being fostered and promoted by mercenary agitators, who, in a movement of organized hypocrisy, disguised in the cloak of the church and the mantle of patriotism, are hurrying through temporary measures by causing the landless and suspicious use of strong drinks.

Mayor Samuel Lewis Shank of Indianapolis, who beat a trust at its own game. When it was reported to Mayor Shank that the commission men's committee of Indianapolis had sent word to the Texas potato growers to stop cutting prices, the mayor due into his own pocket, had potatoes shipped to his city and sold them plus the freight and the handling. The commission combine have threatened to flood the city with "spuds" and undersell to the public, but the mayor said that he was not frightened and would keep up the work.

BORDEN CABINET APPROVED

OTTAWA, Ont., Oct. 9.—Premier Robert L. Borden presented the names of his cabinet to the governor general tonight and received his approval. The new government will be sworn in at noon tomorrow. Mr. Borden is premier and, probably, Sir Wilfrid Laurier will act as president of the council.

The compromise government follows:
Nova Scotia—R. L. Borden, premier.
New Brunswick—D. J. Hazen.
Quebec—L. P. Peltier.
Ontario—Frank Cochrane.
Manitoba—W. J. Roche.
Saskatchewan—Robert Rogers.
Alberta—John Doughty.
British Columbia—Martin Ball.

CHICAGO CELEBRATES ANNIVERSARY OF FIRE

CHICAGO, Oct. 9.—Forty years after the morning when Chicago awoke to a scene of ashes and desolation, with most of its business center wiped out by the fire of the night before, the city today combined the celebration of the anniversary with a display of means of fire prevention.

"Fire prevention next" had been proclaimed by Governor Deneen and Mayor Harrison and all of the city departments contributed in some way to the display. A parade in which the fire and police departments participated with a display of apparatus, was made to recall the disaster of 1871 by devoting a conspicuous place to a woman leading a cow, typifying Mrs. O'Leary and the cow popularly supposed to have started the big fire. In the schools the pupils listened to speeches on means of fire protection.

ORCHARDISTS AGREE TO TAKE \$400,000 DAMAGES

PALISADES, Colo., Oct. 9.—As the result of an all-day conference today between J. R. Miner, resident engineer of the reclamation service and those orchardists whose fruit farms will be damaged by the building of the proposed high line canal, an agreement was reached whereby the orchardists will accept \$400,000 as damages from the government instead of the \$100,000 first asked. The conference was held at the suggestion of Secretary of the Interior Fisher, after his recent tour of the grand valley.

YOURS

Yours for uniformity.
Yours for greatest leavening power.
Yours for never failing results.
Yours for purity.
Yours for economy.
Yours for every thing that goes to make up a strictly high grade, ever-dependable baking powder.
That is Calumet. Try it once and note the improvement in your baking. See how much more economical over the high-priced, trust brands, how much better than the cheap and big-can kinds.
Calumet is highest in quality—moderate in cost.
Received Highest Award—World's Pure Food Exposition.

The private fortunes of German subjects have increased by \$12,500,000,000 within a decade. Workmen's wages throughout Germany have increased on an average by 45 per cent during the last 22 years.

REAL EFFECTS OF FLOODS UNKNOWN

DENVER, Oct. 9.—What number of lives were lost, if any, and what will be the approximate damage done in the San Juan district by the recent floods in the Dolores, Rio de las Animas and Rio Piedra rivers following a series of cloudbursts, is yet unknown. Early reports today, to the effect that three are dead and from 30 to 50 missing, could not be verified tonight because of the interruption of wire communication to Durango. Residents in several towns along these rivers are reported to be threatened with a famine because of the washing out of large sections of the railroad. The situation is worst at Durango and Telluride.

At Telluride arrangements were completed today to freight in supplies from Placerville, 18 miles away. Similar arrangements are being made at Durango. Stage lines are being put into operation between all towns where there is any chance of the roads being found passable. By the washing out of several hundred feet of the Denver & Rio Grande railroad track at Austin, caused by the breaking of Heider reservoir, through pressure of flood waters, fruit growers in the vicinity of Paonia are alarmed at the prospect of not being able to get their late fruit shipments to market. There are 2,000 cars awaiting transportation. Several days will be required to repair the damage.

Little Food in Telluride.
TELLURIDE, Colo., Oct. 9.—A food shortage in this city is threatened as a result of the interruption of railroad traffic, caused by the recent floods. Today the supply of butter and eggs gave out, and the stores of other necessities are running low. A stage service from Telluride to Placerville is handling the passenger traffic. Repair work on the railroad is being pushed, and it is expected traffic from here to Montrose will be resumed Saturday.

Heider Reservoir Breaks.
DURANGO, Colo., Oct. 9.—One thousand feet of Denver & Rio Grande track was washed out today, and another half-mile covered with dirt and debris. When the Heider reservoir, two miles east of Austin, broke, no loss of life is reported. The most serious inconvenience will result from the interruption of traffic and the necessary delays in shipping about 2,000 cars of fruit from Paonia and other fruit

SEASICK PROOF STEAMER ARRIVES.

S. S. VICTORIA LUISE, EQUIPPED WITH FRAHM ANTI-ROLLING TANKS

New York, Oct. 7.—The first great steamer to be equipped with the Frahm anti-rolling tank, the Victoria Luise of the Hamburg-American line, arrived from Hamburg this morning with 531 cabin passengers. In a rough sea this device has reduced the rolling of the steamer from sixteen degrees from the vertical to three degrees, thus insuring comfort to the poorest sailors. The device consists of two U shaped tanks, partially filled with water, extending the entire width of the ship, so contrived that the water flows in the opposite direction to the rolling of the vessel. The ship so equipped is said to carry its own waves, which tend to neutralize its motion and hold the decks in a horizontal position.

In the graceful lines and imposing size of the ship, the arrival of the harbor recognized the fleet steamship.

towns above here. This afternoon a large force of men was put to work clearing and rebuilding the track, and it is expected traffic will be resumed within a few days.

D. & A. G. Reports Damage

DENVER, Oct. 9.—The Denver and Rio Grande gives out the following figures showing the damage done to its property in southern and southwestern Colorado by the floods which have been raging for the past week.
Lines closed by flood damage: all lines west and south of Chama, N. M.
The total mileage follows:
Chama to Durango, 197.4 miles; Durango to Silverton, 45.2 miles; Durango to Farmington, 31 miles; Rico to Dolores, 36 miles; Monte Vista to Grand, 22 miles. Total, 238.1 miles.
Lines reported less damaged: Ridgeway to Rico, 66 miles; Vance Junction to Telluride, 8 miles; Dolores to Durango, 60 miles. Total, 134 miles.

One hundred and one miles an hour on an average was the record speed recently attained in an aeroplane by a French aviator; a strong following wind was the cause of his success.

Weak Lungs
We strongly recommend Ayer's Cherry Pectoral. We believe it prevents, protects, soothes. What does your doctor recommend? Take only the medicine he approves. Trust him every time.

"FIXED FOR THE WINTER, SURE ENOUGH!"

Must have ordered coal twice. Next time I'll get it all the better—better than no coal at all when the cold wave comes. Are your coal bins full, Mr. Householder? Look a little out. Don't wait till your fingers freeze—let's have your order now. Surer of quick delivery, too, now than when Mr. and Mrs. Everybody want their coal.

EQUAL RIGHTS

(Continued From Page One.)

ties, who state that this fall is clear for the feminine vote this way should the male population vote it in tomorrow. There seems to be no doubt in the minds of the lawyers that the amendment goes into effect automatically the moment it is confirmed. This will make registration on October 31 impossible, but will provide plenty of time before December for the proper enrollment of the newly-made voters.

The campaign throughout has been noticeable for the absence of the physically militant features that helped to defeat the equal suffrage amendment 15 years ago. Everywhere the women workers have displayed a quiet earnestness that has won them many friends, both among the state legislators and the press, which has been noticeably lenient in dealing with the issue.

Women Well Organized.

The women's campaign started several months ago when Mrs. Elizabeth Lowe Watson, president of the Equal Suffrage association, appointed delegates to propose an amalgamation of the several equal rights clubs then existing throughout the state. The proposal met with instant approval, and the organization was daily strengthened by the arrival of prominent suffragette speakers from all parts of the country. These women were sent out in search of the vote, just as the male spellbinder is. Their expenses were largely paid by subscriptions raised by equal rights enthusiasts throughout the United States.

Particular attention has been paid to the rural districts. The state campaign committee, under the direction of Mrs. James H. Hume, ex-president of the State Federation of Women's clubs, and Miss Blanche Morse, former secretary of the same, arranged to cover the most remote counties, through their "circuit riders." They say that their speakers were met everywhere with courtesy and attentive interest.

NAVY OFFICER KNOWN HERE TO BE MARRIED IN DENVER

DENVER, Oct. 9.—Lieut. W. E. Madden of the United States navy, well known in Colorado Springs, arrived in Denver Sunday with Maurice Witkind, presumably for nothing more serious than an automobile ride in Denver from the Star ranch near Colorado Springs.

He arrived here a bachelor, but he will go back a benedict. Although he has failed to confide the fact to his friends, the young navy officer has the climax of a navy romance arranged. He will be married at the Brown Palace hotel at 2 o'clock tomorrow to Miss Dorothy N. Hayes of Newark, N. J.

Miss Hayes, accompanied by her sister, will arrive in Denver at 12 o'clock Tuesday. Madden has been married a six months' leave of absence from the battleship Maryland.

In January, 33 per cent of London properties are valued at less than \$200 each.

FLAX CROP IS ONLY ONE THAT WILL EXCEED LAST

WASHINGTON, Oct. 9.—Disastrous weather conditions, which prevailed throughout the country earlier in the growing season, abated in September, and the condition of most of the important unharvested crops on October 9 showed improvement. Corn was one-tenth of 1 per cent higher than it was on September 1; potatoes improved 3.1; tobacco, 2.4; flax 1.2; apples, 2.3; rice declined 1.5.

The effect of hot weather and drought throughout the growing season was shown in the official preliminary estimate of the production of spring wheat, oats and barley. These showed a loss in production over last year's harvest of an aggregate of 301,000,000 bushels. The indicated total production of corn, as figured from the current conditions, will be about 356,000,000 bushels less than last year's crop. Flax is the only important crop that will give a harvest greater than last year.

Preliminary Estimates.

Official preliminary estimate of production of important crops follows:

Crops	1911	1910
Spring wheat	231,320,000	231,320,000
Winter wheat	455,149,000	464,044,000
All wheat	686,469,000	695,364,000
Oats	873,481,000	1,136,785,000
Barley	145,351,000	162,227,000
Rye	39,677,000	33,039,000
Hay (tons)	46,965,000	50,978,000

The indicated total production of import crops not yet harvested, as shown by their condition on October 1, follows:

Crops	1911	1910
Corn	2,768,848,200	3,125,715,000
Buckwheat	15,693,000	17,239,000
Potatoes	278,551,500	338,811,000
Tobacco (lbs.)	715,342,250	884,349,000
Flax	24,495,300	14,116,000
Rice	22,532,400	24,510,000

Flaxseed.

TAFT EXPECTS

(Continued From Page One.)

Panama canal by July 1, 1913, said that Canada was going to be sorry she had not adopted the reciprocity treaty, and talked for a few minutes about conservation. In speaking of the opening of the Panama canal, the president said he would let the people of Bellingham into a little official confidence.

"If Nothing Happens."

"If nothing untoward happens," he said, "you can count on the completion of the canal not later than the first of July, 1913. It has been promised only on the first of January, 1913, and therefore, if it is not ready until then, you must not say that anybody made a promise that it would be completed before. I am expressing a hope based on calculation, but, of course, man proposes and God disposes, and it is possible that something will happen down there in the way of slides or delay to work that may continue it until the first of January, 1913. But I don't want you to have any unpleasant surprise. I don't want you to have heart disease if the first steamer goes through on July 1, 1913."

Mr. Taft said that it made no difference what policy was adopted in regard to tolls or management of the canal, for the people were certain to see that arrangements were made so as to make it profitable to ship goods through the waterway.

The president's reference to reciprocity, called out by his proximity to the Canadian line, was short, but it brought forth some applause.

Believes Canada Made Mistake.

"There is one topic," he said, "that I had intended to discuss with you, but my near neighbors across the border settled that a week or more ago, and seemed to make it past history. But I think you will agree with me that in doing so they made a mistake, and that had that treaty gone through it would have been greatly beneficial to both countries. Now, I think we know a little more on this side than they do on theirs, because we are an older country, and after some years of experience it is possible that they will come to take the right view. But whether that be so or not, if they don't know as rapidly as we do and as rapidly as they might have grown, they cannot say it is our fault."

Before leaving the speaker's platform at Bellingham, Sono Takigama, a pretty little Japanese woman, representing the Japanese society of the city, presented to the president a bouquet of flowers. With Mrs. Takigama were her two little daughters, both clad in flowing silken kimonos and both unabashed at their proximity to greatness. One little girl showed an early fondness for brass buttons by climbing on the knee of Major Butt, the president's aid, and remained there blissfully until a 15-minute interval. While the party waited on the platform, the major blushed, but acted the temporary godfather as if he liked it.

RODGERS IN SPRINGFIELD

MORE BODIES FROM RUINS

AUSTIN, Pa., Oct. 8.—Slowly Austin, devastated by flood and fire, is giving up its dead.

Today two unidentified bodies were recovered. One was that of a woman about 40 years old and the other an 8-week-old girl. Immediate burial was imperative. Sixty-four bodies have been recovered and 10 others are missing.

Three young women telephone operators were rewarded for service rendered during and since the flood. In the case of Kathleen Lyon, one of the heroines of the flood, who stuck to her post and flashed warnings of the onrushing waters, the reward was substantial. The telephone company presented her with a gold watch, a check for \$250 and raised her salary. Lena Binkley was given \$100 and Hazel Knapp \$50.

A great amount of work was accomplished in clearing away debris.

AUTHORIZE LONGEST RAILWAY MAIL ROUTE

WASHINGTON, Oct. 9.—Postmaster General Hitchcock today authorized the establishment of the longest railway mail route in the United States. It will extend, beginning November 1, over the Western Pacific lines between Salt Lake City and San Francisco, a distance of 992 miles.

RUSSIAN REFUGEE

(Continued From Page One.)

banks. It was alleged, were counterfeited by Leon, a Russian, who had fled from the First National Bank of Arizona, First National of Orange, Cal., Pasadena, Cal., National Bank, First National of Williamsport, Pa., First National of Portland, Ore., National Bank of Commerce, Wichita, Kan., and London, Paris National of San Francisco, Illinois National of Springfield, Ill., Bank County National of Tyrone, Pa., Crocker National of San Francisco.

Leon also was alleged to have counterfeited the \$10 United States Buffalo note and to have circulated it on the Pacific coast. The national bank notes were circulated, principally in Los Angeles, San Francisco, Portland, Ore., Seattle, Wash., Chicago and New York.

Had Taken Up Homestead.

VICTORIA, B. C., Oct. 9.—The counterfeiting plant alleged to have been operated by Albert Leon, arrested in New York today, was located two miles from the Indian village of Nootka, on the west coast of Vancouver island, where Leon had a small cabin in the woods and gave out that he was prospecting and timber-cumulating.

United States secret service men came to Victoria 10 days ago and went to Nootka, posing as timber buyers. They went to Leon's cabin, which was found deserted. Search revealed a high-class camera, acids and etching plates. No bills of any kind were found.

Leon had taken up preemption passage from the British Columbia government for a homestead of 160 acres, and his cabin was built on his preemption.

Had Real Money on Him.

NEW YORK, Oct. 9.—When Leon was arrested the secret service men found on him \$200 in real money and an express money order for \$400. No spurious currency was found and search of his room revealed nothing to connect him with counterfeiting operations. Although he admitted that he knew the men arrested in Chicago, he denied having anything to do with making the notes they are alleged to have passed.

To Chief Flynn he said he was engaged as a farmer at Nootka Island, B. C., having taken up a government land grant. He added that he was considering the raising of Angora goats and had gone to Kansas City to meet some men engaged in that occupation.

At the time of his arrest he was about to purchase a ticket to Dommarara, Dutch Guinea.

Believe He Was In Denver.

DENVER, Oct. 9.—Albert Leon, arrested in New York on a charge of passing a counterfeit \$10 bill, has, according to local secret service officials, not only been operating in Denver within the last 30 days, but succeeded in victimizing 40 Denver merchants. Leon is accused of passing several thousand dollars worth of counterfeit notes drawn against several San Francisco banks. The secret service men here alleged that Leon has been operating extensively throughout the west.

Concord grapes, 22 cents per basket, at Hemenway's.

TURKS NEARING TRIPOLI

TRIPOLI, Oct. 8.—It is reported that 8,000 Turks are 12 hours distant from here under Munir Pasha. It is thought probably they are trying to reach Tunis. The Italian expeditionary force has not yet landed. Everything is quiet in Tripoli.

It is not considered likely the Turks will try to recapture the town as the officers have left their families here.

MATTA, Oct. 8.—It is reported that a majority of the Turkish troops in Tripoli have fled toward the Tunisian frontier.

Many Turkish prisoners have arrived here. They were influential residents of Tripoli whose presence the Italian authorities believed would be dangerous. The prisoners include the acting and lieutenant governors and other Tripolitan officials. They assert that the Turks and Arabs are concentrating about 12 miles beyond Tripoli.

BLACK RIVER FLOOD COVERS WHOLE VALLEY

LA CROSSE, Wis., Oct. 8.—The Black River flood, which wiped out the business sections of Black River Falls, Friday and Saturday, now spreads over the entire Mississippi valley, extending from the Minnesota to the Wisconsin bluffs, by merging with the larger river miles north of here. Thousands of acres are inundated, and thousands of tons of hay have been swept away or ruined.

The Mississippi river is dotted with wreckage, including roofs of houses, barns, furniture and household goods of all descriptions.

Three persons were pushed into the river at Black River Falls by sightseers behind them, and were rescued with difficulty.

At a business men's meeting at Black River Falls, a committee of 11 was chosen to report next Saturday on a location for the new city, the sentiment being that it should be moved to higher ground, and further from the river.

MINISTER HELD FOR BIGAMY

JOLIET, Ill., Oct. 9.—Following the arrest at Beecher, Ill., today of the Rev. John Horton, formerly of Bolton, England, on charges of bigamy, the police announce that the pastor has

Women's Gun-Metal Calf Shoes

THE REAL "SANS-GENE"

From the London Globe.

Every one knows the washerwoman who was so familiar with Napoleon in Victorian "bardous" play. Madame Sans-Genes, the real "Sans-Genes" who lived at that time as a dragon in one of the great Corsican's armies and spent 20 years in camps and barracks, in campaigns and battles over Europe. In the Musee de l'Armee in Paris a special case has just been installed inside which stands her aquiline features.

Her real name was Marie Therese Figeac and she was born in Burgundy in 1774. When 19, at the end of the Reign of Terror, she enrolled in a cavalry regiment commanded by one of her uncles and soon acquired the nickname of "Sans-Genes."

Her real name was Marie Therese Figeac and she was born in Burgundy in 1774. When 19, at the end of the Reign of Terror, she enrolled in a cavalry regiment commanded by one of her uncles and soon acquired the nickname of "Sans-Genes."

MINING MAN HURT WHEN MOTORCYCLE RUNS AWAY

Special to The Gazette.

CRIPPLE CREEK, Oct. 8.—Robert Bairnes of the Cripple Creek Milling company's staff was seriously injured this morning while riding a motorcycle down Cripple Creek gulch. In some manner Bairnes lost control and the machine went over the rock bank. Bairnes was found in unconscious condition by L. Lambert, an express driver, and brought to this city. A severe cut in the throat three inches long and a scalp wound were dressed, but Bairnes is also suffering from slight concussion of the brain.

Dependable Dentistry

Most everyone knows by experience that there are two classes of dental work—the kind that lasts and that which falls. You cannot afford to buy the kind that falls at any price. We have the equipment and experience necessary to guarantee satisfactory work in every case. We use only the best grade of material, do the work by methods that eliminate pain and the result is work that lasts and looks well.

The fact that the same patients have been coming to us and bringing their friends for the 15 years we have been established in Colorado Springs speaks well for the quality of our work. Our system allows us to give you the best dentistry at prices that are right. We would be pleased to explain to anyone in need of dental work how we can save you 25 to 50 per cent of the usual cost. No charges for examination and estimate.

Dr. Chaw & McDonald, Dentists

TUESDAY, OCTOBER 10, 1911.

DRY FARMED CROPS

THE man who starts out to persuade a whole population to accept entirely new theories and practice entirely new methods in relation to such an industry as farming has tabbed a prodigious job. There is nothing surprising in the "Missouri" attitude of most people toward dry farming, their reluctance to believe until they are "shown." Indeed the surprising thing is that the dry farming propaganda has made such extraordinary headway in so short a time. Only four or five years ago the term itself had scarcely been used but now everybody in the country is familiar with the movement and countless thousands, many of whom are practical farmers, have acquired a thorough understanding of the subject and firm confidence in its value.

This is pretty good evidence that dry farming is not merely a fanciful theory. Of course it was a theory in the beginning merely a theory that if the surface of the soil were kept broken its moisture would be conserved and its productivity thereby increased. But it has been developed from this stage by the continual experimentation of hard-headed, hard-working farmers who mixed brains with their labor and little by little attained the results they were seeking.

New theories are constantly being tested and new information gained, and it is certain that within a few years vastly more will be known of this subject than has yet been learned. But enough has already been definitely determined to place dry farming on a sound basis. It is no longer a theory, but a proved success, and the great work now to be done is to secure its practical application in every acre of land in the world which does not receive sufficient rainfall for the practice of agriculture by ordinary means.

This is the work undertaken by the International Dry Farming Congress. Primarily the Congress is an educational organization, for its most important business is to teach the farmers how to make successful use of the mass of knowledge that has been acquired on this subject. This is being done on a large scale by the wide distribution of the Dry Farming Bulletin and other publications. And it will be done in another way next week when the congress assemblies in Colorado Springs to hear the addresses and discussions by experts.

Here the whole subject of dry land agriculture will be threshed out, new ideas will be explained and the conduct of next year's educational campaign decided upon. The sessions will be attended by representative farmers from all over the West. They are men of an unusual type, alert, progressive men with the intelligence and zeal to investigate new things and take advantage of new opportunities. They realize that dry farming is the medium through which the entire semi-arid West is to be converted into a rich agricultural domain, and that the subject is therefore of vital importance to them.

Among the farmers in attendance at the Congress will be many who have themselves tested the new method and demonstrated its practicability. The story of these successes is familiar to most readers of The Gazette through the series of articles on dry farming in Colorado contributed by H. S. Rogers and based on his own investigations. Mr. Rogers has pictured and described dozens of ranches in El Paso and neighboring counties where the farmers are now growing crops which compare favorably in quality and quantity with crops raised on the average Eastern farm. In every case these yields have been obtained under adverse conditions, with rainfall no greater than the average of this region, and success has been due entirely to the intelligent application of dry-farming methods. Only a few days ago he told of an oat crop harvested by Mr. Lem Gammon, near Ramah, which averaged between 50 and 55 bushels an acre. At the Congress headquarters on Bijou Street are dozens of samples of various grains and grasses of unusual quality, all of which were produced in the same way. In view of these facts the individual who

scorns at dry farming simply reveals his own ignorance. Dry farming is a proved success and the quicker the entire community recognizes the fact and proceeds to take the fullest advantage of the opportunities it offers the better it will be for our own welfare. The Congress is to be the most important convention ever held here and it would be inexcusable if we failed in any way to recognize it as such by greeting ourselves to the utmost to make it an unqualified success.

BURNING LEAVES

THE season is now at hand when, as a rule, our boasted pure air is converted into a very different article by the admixture of enormous volumes of smoke from a thousand burning piles of leaves. A small minority of householders are considerate enough of themselves and their neighbors to have their leaves carted away, but the usual practice is to heap them in the gutter and start a bonfire.

This practice ought to be abolished, not merely because the resultant smoke is disagreeable to everybody, but because it is a positive injury to the thousands of invalids and semi-invalids who make Colorado Springs their temporary home. To people afflicted with asthma, especially, life is made miserable from the beginning of the leaf-burning season until its end. Moreover the practice is quite unnecessary, for the leaves can be hauled away at very little expense, so it ought to be strictly forbidden by the City authorities.

OPEN PARLIAMENT

THE PARK CONCERT.
There was something very satisfying and unusually thrilling in the singing of Miss Jenny Corea Bunn at Stratton park last Sunday. The fine accompaniment of the pavilion were evidently appreciated both by the vocalist and the audience. They acted as a big sounding-board for her sweet and melodious voice. Her former efforts from the open-air bandstand could not be so well appreciated because of adverse conditions. The audience at the pavilion showered the lady with repeated encores. The writer feels assured that all who heard her were, like himself, charmed as well as inspired by her beautiful vocalization. And Pink's orchestra rendered an unusually fine program.

This is no puff for the Interurban Railway company, but wholly impartial.

Colorado Springs, Oct. 9.

SUNDAY BUSINESS AND SUNDAY LABOR.

TO THE EDITOR OF THE GAZETTE:
The people have been compelled, beyond all reason, to endure Sunday teeming and labor and open business transactions on the Sabbath in Colorado Springs. If you look out on our streets on Sunday morning and see the teeming and movement about and hear the pounding and the open stores doing business as on other days in a few of the places of business, you would think we were in a land where there was no religion and the God of the Christians had no power. The people of Colorado Springs should have some rights, to the consideration that this is a Christian country and that there are a large number of people in this city who believe the Bible and want the Lord's day respected. When we try to train our children to respect the day of rest and worship, there is going on before their eyes publicly, open stores and teeming and common labor.

Yesterday, Sunday, October 8, one of our coal dealers brought a load of coal against the protest of the home and disturbed the neighborhood by shoveling the coal into the coal-burner, making noise that could be heard a square away. When the owner protested against the delivery of coal on Sunday, the driver replied that he had to go to the bank and as it was on the way they thought it was all right to deliver the coal. If the unscrupulous coal dealer thinks the citizens will stand for that kind of thing, they are very much mistaken. The Christian people have rights that must be respected. It is true we have no law against this Sunday business and Sunday labor. Nearly all of the citizens of this city have enough sense of honor to close their stores and cease from labor on Sunday, but there are a few that have not, and it is only fair and proper that a law should be made to bring all to comply with that which the people generally observe. The moral life of the people demands it; public sentiment requires it; the good name of our city deserves it. If our present city commissioners will not pass such an ordinance, it is up to the citizens to place at their representatives, and elect the officers who will.

Colorado Springs, Oct. 9.

WAGES HERE AND ABROAD.

TO THE EDITOR OF THE GAZETTE:
In your edition of Friday, October 6, speaking of the power of the British worker and desiring the comparative standards of work, wages and living between the British and the American worker, you state that the American worker receives "one-half more" wages than his English brother. I want to call your attention to the craft of British bricklayers. The members of that craft average 400 bricks per day, while the American bricklayer averages 2,500 per day.

Mr. Canon has gathered some very interesting data as to giving most to English and American workers. He cites that the English brickmaker's wages are 40 cents per week while his American craft-brother receives \$80 per week. According to the same authority, the English nailmaker produces 200 pounds of nails in one week as against 5,500 pounds produced by his American brother. If the American nailmaker's wages were proportionately to those of the Britisher, he would receive \$250 and not \$80 per week.

The British laborer is compelled by his union to "go easy" and handle but one machine. The American "high-skilled" laborer attends to as many as five and six machines during his work day, thus making on his fellow's track. I saw skilled men make six pairs of shoes in six days, receiving \$6 for the work. The American shoe-worker with the improved machinery at hand produces 52 pairs of shoes in six days, and receives about \$18 per week, thus underselling his European fellow-worker to the amount of 1,100 per cent.

As we see, the American workers with all the boasted high wages and other make of prosperity owing to them by the occasional dilettante of economics and sociology in the bourgeois field, is actually the lowest paid worker of either British, German or French.

Colorado Springs, Oct. 9.

WRITING ON FINANCE

From the Columbus Journal.

An editor never feels more important than when he is writing an article on general financial conditions, and trying to make it sound as if he had absolute mastery of the subject.

FROM OTHER PENS

THE REAL ISSUE
From the Pittsburgh Dispatch.
Effort has been made to report that since the visit of Alexander's to the conservation question there have been "greatly modified," which is exactly what is to be expected of a certain section of the press to indicate that Mr. Nichol's objections to having Alaska mines robbed up were unfounded. The important point is whether the conservation views and schemes have been greatly modified.

WHY NOT A PARCELS POST AT ONCE?

Why is it that you cannot send trunks by freight? We believe we are right when we say From Life.
That in order to do this they first have to be created.
Why is it that if you send anything by freight that it takes about four times as long as it ought to?
It takes one hour and 30 minutes for a fast train to go to New York from New Haven. To cover the same distance, a freight train will not take longer than three or four hours.
But if you send a package by freight from New Haven to New York it may take days. There is no certainty when you will get it.
This forces freight at a minimum charge, into the hands of the express companies at a maximum charge.
The express companies are so loaded with money that for years they have had to declare hundred per cent dividends every once in a while, to get rid of it.

THE DREAMER.

Beneath the fig-tree's boughs he sat, and dreamed of some fair place, where never heartless plutocrat can grind the poor man's face. His vision placed before his eyes a region fair and good, and while his spirit roamed the skies, his wife was splitting wood.
The dreamer gets some fine bouquets from poets and their kind, who give him laurels and a crown, and he is so proud that he will not let them go. But when it comes to old-brass tactics, like that pilgrim best who sheds his coat and takes the axe, and gives his wife a rest, I like the man who's wide awake until he goes to bed, who hustles in the night to make the price of prunes and bread. That man is hardly worth his chalice who loafs the hours away, and backs on downy beds of ease while others baste their bay, and if he lets the housewife sweat in soap and suds and steam, while he proceeds to pique the cloudland, on a dream, he is so punk that some one near should give the knock-out punch; for men like that are miffed dead at one knock the bunch.

DELUGE OF MOTIONS AT OPENING SUPREME COURT

WASHINGTON, Oct. 9.—A deluge of motions from 80 odd attorneys met the supreme court of the United States when it convened today after a four-month's recess. The court then adjourned until tomorrow when it will begin hearing cases.

Prominent among the many motions for early consideration were those involving the so-called Louisiana and Missouri cases, involving the question of state regulating interstate commerce; that of leasing of the public coal lands; consolidation of Presbyterian churches throughout the country; and the constitutionality of the naturalization law of 1906.

WASHINGTON, Oct. 9.—Returning to Washington in time to attend the opening session of the supreme court of the United States, Attorney Wickert today resumed his duties at the department holding many conferences with his assistants during the day. It is generally expected that the parole release applications of John R. Walsh, the former Chicago banker, who is serving a term of imprisonment in the Leavenworth penitentiary, will be considered soon by the attorney general and acted upon by the board of parole. The board has disapproved the application for parole the matter will not go to the attorney general.

RIDES 65 MILES FOR AID AFTER ARMS BURNED OFF

STEAMBOAT SPRINGS, Colo., Oct. 9.—Wonderful vitality is shown by Alex. Dunn, a plowman of Three Forks county, Wyoming, who was brought here today with his arms burned to a crisp and his shoulders nearly so. Dunn, who was working on an irrigation ditch and who is an epileptic, became ill while drying his clothes over a smoldering mass of low burning coals, and fell into the fire. It is believed that he lay there two or three hours. When he recovered consciousness, despite his frightful injuries, he walked half a mile to a cabin and a little later endured a 65-mile wagon ride to this city. Although Dunn's marvelous vitality is given full weight in consideration of his case, it is said he cannot survive more than two or three days.

UNDERGROUND EXPLOSION CLAIMS FOUR VICTIMS

NEW YORK, Oct. 9.—Four men were killed and six injured today in an explosion of dynamite 60 feet underground in a shaft under the aqueduct for the Catskill water system. The dead men were all Italian laborers. Michael Kearney, foreman of the gang, who was seriously injured, and John W. Martin, night superintendent, were arrested on charges of criminal negligence. The shaft where the explosion occurred is being drilled and blasted through solid rock and is about 16 feet in diameter.

BOY USES CARTRIDGE FOR TARGET; DIES OF WOUNDS

DENVER, Oct. 9.—Jesse Harris, aged 11, of Silver Plume is dead at St. Luke's hospital of a bullet wound inflicted by himself in a peculiar manner last Wednesday. The boy, according to the story told to Coroner Horan, used a shotgun cartridge as a target and shot at it with a 22-caliber rifle, and shot at it with a 22-caliber rifle. The brass top of the cartridge struck the boy squarely on the forehead, hitting his brain. Harris was brought to Denver and placed under the care of Dr. L. B. Perkins. His case was considered hopeless.

ONE OF DENVER'S BEST KNOWN CLUBMEN DEAD

DENVER, Oct. 9.—Archibald P. Gibson, vice president of the Denver Athletic club, is dead at his residence, 444 Glen street, of pneumonia. He was 33 years old and one of the best known clubmen in Denver. Gibson came to Denver in 1890 from Scotland and became a Denver representative of the Scottish firm of Robert Gibson, Campbell & Co., wholesale woolen merchants. He was at one time chief of the Denver Caledonian club, an organization of Scotchmen. He was also a member of the Colorado Golf club.

CHICAGO "L" ROAD PLANT WRECKED BY EXPLOSION

CHICAGO, Oct. 9.—One in a catch basin is believed to have caused an explosion which partly wrecked the plant of the Metropolitan west side elevated road early today and caused a panic among 100 passengers on a train which was within a few feet of the powerhouse when the accident occurred. The explosion tore a hole 10 feet in diameter in the side of the building and a piece of the third rail of the elevated structure was hurled several hundred feet. Five men at work in the boiler room escaped without injury.

LOOSE BOOKKEEPING IN NAVY

WASHINGTON, Oct. 9.—A discrepancy of over \$1,250,000 between the material on hand and that called for by the books of the Washington navy yard was shown by the inventory of that yard, just completed, according to an announcement by Secretary of the Navy Meyer today.

This is the first inventory of record made at the yard within the last 25 years. The discrepancy is attributed to a variety of causes, including which Secretary Meyer set out some time ago to correct.

Chinese newspaper report that there has been a considerable increase in the imports into China of Japanese beer, the shipments during the last year having exceeded 10,000 cases. The Japanese salesmen are making a special effort to introduce the beer in hotels, railway cars and eating houses, meat markets and public places generally. Presumably all of that beer sold in place in Shanghai, Hankow and Tientsin.

Sick headache is caused by a disordered stomach. Take Chamberlain's Tablets and correct that and the headache will disappear. For sale by all dealers.

Are you particular about your stationery?
We invite you to see the new styles in Hurd's, Whiting's and Crane's fine writing papers.

HARDY'S
16 NORTH TEJON STREET

IN THE EARLY DAYS

THIRTY YEARS AGO TODAY TWENTY YEARS AGO TODAY

October 10, 1881.
The Capital Pavement company started removing the plank sidewalk in front of the Opera house preparatory to laying one of composition.
Mrs. John Sheldrick, who lived in the northeastern part of town, was severely burned by the explosion of a kerosene lamp.

A burglar secured \$100 in cash from George Aux's trousers pocket while he was asleep in bed. Mr. Aux did not discover his loss until the next morning.
The county jail was so full that there was no place to put newly convicted criminals.

October 10, 1891.
The Lemhi Placer Gold Mining company was incorporated by local and Denver capitalists to operate some supposedly rich placer ground in Idaho. Great things were expected of this company, but the workings never "panned out" anything.

City Editor Rogers of The Gazette returned from a five weeks' vacation in the east. Mr. Rogers is now press agent for the Dr. Farquhar congress.

There were 45 men employed on the sewer extension work in the city, and the contractor desired to employ 45 more.

Seven Great Literary Workers

History has always attached much importance to the Number Seven.

"Of all numbers there is one which commanded, in a higher degree, the esteem and reverence of mankind." The Gazette has taken this charmed number, and has woven into stories on a variety of subjects a Series of Sevens, beginning each Monday and continuing during the week.

No. 2 SIR WALTER SCOTT

Sir Walter Scott was one of the most inveterate workers of all the literary men of modern times. When in the full tide of his popularity he produced the Waverley novels at the rate of 12 volumes a year. Thus "Tianhook," "The Monastery," "The Abbot" and "Keenelworth" were produced in little more than 12 months. Indeed, Scott composed faster than he could write. When unable to proceed with a novel he usually suffered from sickness and bodily suffering to proceed with "The Bride of Lammermoor," he called to his help the services of Laidlaw and John Ballantyne, as his amanuenses. They had often to call upon him to stop his dictating while his audible suffering filled any pause.

"Nay, Willie," said Scott, "only see that the doors are fast. As to giving overwork, that can only be when I am in woolen." John Ballantyne usually had a dozen pens ready made before he seated himself opposite the sofa on which Scott lay and began his work. Though Scott often turned himself on his pillow with a groan of torment, he usually continued the sentence in the same breath. But when any dialogue of peculiar animation was in progress the spirit seemed to triumph over matter and Scott rose from his couch and walked up and down the room, raising and lowering his voice as if acting the part.

It was in this fashion that Scott produced by far the greatest portion of "The Bride of Lammermoor." It is a remarkable circumstance connected with the production of this, perhaps the most dramatic and tragic of Scott's novels, that when the work was put into his hands after his recovery, he did not recollect one single incident, character or conversation it contained. The story had been rooted in his mind from childhood, but the whole of the working out of the drama in its marvelous detail had been accomplished as if he had been asleep, and when finally read out it came upon him like a half-remembered dream. It may, however, be added that Scott, at the time of its composition, was under the influence of opium and morphia, both of which he took in considerable quantities for the purpose of allaying the painful cramp in his stomach, and that he was therefore in an altogether abnormal state of nervous excitement.

Scott was a very great purveyor when he wrote "The Life of Napoleon." This voluminous but by no means enduring work was written for the special purpose of paying his debts. It was composed in the midst of pain, sorrow and ruin. The nine volumes were written rapidly in less than 12 months. At the same time he was proceeding with the novel of "Waverley," taking refuge in the composition of the latter as a relief and relaxation from dreary labor.

Scott produced in all 71 volumes of novels, 21 volumes of poetry and about 20 volumes of history and biography. Besides a large number of articles for the "Quarterly Review" and other periodicals. One hundred and four of these volumes were produced between 1814 and 1831, the principal working years of his life, or at the rate of about six volumes a year. The mere mechanical work of writing them out was immense, but it brought on him no ill-effects. He was not wholly an author. He was sheriff of his county, a clerk of the court of sessions, partner in a

"POLLY OF THE CIRCUS" COMING

An event of the theatrical season will be "Polly of the Circus," Frederick Thompson's magnificent production, to be seen at the Opera House next Saturday, matinee and night, with Miss Ida St. Leon in the titular role, supported by all the members of

IDA ST. LEON IN "POLLY OF THE CIRCUS," which will appear at the Opera House on next Saturday, matinee and night.

Margaret Mayo's wholesome and simple story is one of the most delightful plays of recent years. It would be a difficult task to imagine a prettier scene than that with which the first act of "Polly" closes. It is there that the young girl of the circus world gets her first insight into those that are higher and better, when, as she

CHILDREN'S KIDNEYS

No Colorado Springs Mother Should Neglect the Little One's Health.

Often times weak kidneys cause great annoyance and embarrassment to children. Inability to control the kidney secretions, at night or while at play, is attributed to carelessness and too frequently the child is punished. Parents having children troubled with kidney weakness would do well to treat the kidneys with a tested and proven kidney remedy. If there is pain in the back, discolored urine, irregular urination, head-ache, dizzy spells or a tired, worn-out feeling, begin giving Doan's Kidney Pills at once. It is remarkable how soon the kidneys are cured and how recommended by thousands. Proof in a Colorado Springs citizen's statement.

H. W. Perkins, proprietor of Home Laundry, 314 N. Spruce St., Colorado Springs, Colo., says: "Since our seven-year-old boy was a baby, he has been a great sufferer from kidney and bladder trouble until a few months ago, when we gave him Doan's Kidney Pills, obtained from the Fletcher Drug Co. These pills brought prompt relief and I am glad to endorse them."

For sale by all dealers. Price 50 cents. Porter-Milburn Co., Buffalo, New York, sole agents for the United States.

Be happy, the kidneys—Doan's and be free.

showed with delight at the fun in "Seven Days," that doesn't let up for a fraction of a second. For six months Chicago roared itself hoarse over the comedy, for four months Boston shouted with laughter, while Philadelphia, only a little behind in length of time, was as vociferously merry over the most delightful play in 25 years. There is no getting away from facts like these. They prove "Seven Days" the great popular comedy of the time. Designed by its authors, Mary Roberts Rinehart and Avery Hopwood, to entertain and amuse, to create wholesome comedy and clean honest laughter, the play has conferred on humanity the true blessing of happy, healthy, unqualified enjoyment. Its humor, undisturbed by cynicism and children's laugh, therefore benefiting the world, which is not

MISS MADELINE WINTHROP, with the "Seven Days" company at the Opera House this evening.

ter for laughter, and right worthily has it served the cause of the theater in showing that the American public likes above all else a comedy untroubled by coarseness or vulgarity. "A play," said the Chicago Tribune, "does not have to be serious and educational to be good. One 'Seven Days' is worth all the serious and educational plays that certain dramatists will write in a lifetime. It is cheering and edifying." Messrs. Rinehart and Hopwood are sending "Seven Days" here under exceptionally attractive conditions. It will be the Astor Theater company, entire and complete Broadway attraction.

THE LORCH COMPANY PRESENTS "OLIVER TWIST"

Seats are now selling at the box office for tomorrow's production of "Oliver Twist," as presented by Mr. Theodore Lorch and company. With Miss Cecil Fay in the title role, "Oliver Twist" will run but three days of this week—Wednesday, matinee and night, Thursday, Friday matinee and night. In accordance with the school children, the curtain of Friday's matinee will not rise until 2:15 o'clock.

Mr. Lorch in the portrayal of Bill Sikes, will, without doubt, make the success in the part as he did early last season, when the company produced "Oliver Twist" in Little Rock, Ark., where it played to packed houses at every performance. With Miss Fay in the role of Oliver, and James Fowler as The Artful Dodger, George L. Graves in the character of Fagin, and Camille Lewis, Fred Doty and William Dawes in parts most fitting to the "poor fellow" can be nothing but a rounding success from the first of the curtain. Wednesday, matinee, until the last act, Friday evening.

Next week's play will be announced on Wednesday. Seats are now selling at the box office for next week's production, as well as for "Oliver Twist." Phone 20. Prices never change.

PERT AND PRETTY PAIR BIG HIT AT MAJESTIC

It is putting it mildly to say that that pert and pretty pair, the Misses Hanson and Bjorn, are the Majestic this week are a big hit for they are one of the biggest hits in the comedy line that has come down the vaudeville pike in several months, and undoubtedly the most popular feminine team that the Sullivan & Comstock people have booked this season. They are easily the hit of the show—which

GLADYS BJORN, of Hanson & Bjorn, a favorite at the Majestic this week.

is saying a good deal in view of the approval with which the other acts have been received—and they would be the big hit on almost any bill, for when it comes to personality and entertaining ability they are the candy kids.

Miss Bjorn makes the most of her good looks, both facially and figuratively speaking, and Miss Hanson, while she cannot hide a pair of the most fascinating eyes, hides her other natural charms behind a couple of make-ups that are rich. Her first is a holly green of the extremest type, pink and the second a nondescript attire that might have come out of the backwoods, and is itself enough to make her stunt ridiculously funny.

DON'T PULL OUT THE GRAY HAIRS

A FEW APPLICATIONS OF A SIMPLE REMEDY WILL BRING BACK THE NATURAL COLOR

"Pull out one gray hair and a dozen will take its place," is an old saying which is, to a great extent, true; if no steps are taken to stop the cause. When gray hairs appear it is a sign that Nature needs assistance. It is Nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair-restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It restores dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.

Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent, Robinson Drug Co., 103 E. Pike's Peak Ave.

But what they get off in the talking, singing, dancing and general nonsense line, keeps everybody laughing, and keeps them talking about it after they get out.

Altogether the bill this week is an offering even above the average. Performances at 7:45, 7:50 and 8:10. Admission, only 10, 20 and 30 cents.

EUROPEAN STARS NEXT WEEK AT MAJESTIC

There have been some great comedy acts at the Majestic in the last few months, but nothing to beat, if indeed to equal, the great European team, Heeley and Meely, "two lucky tramps," who are scheduled to give local theatergoers a week of hilarious fun, beginning next Saturday afternoon. For the past five years Heeley and Meely have been all the rage on European circuits, and their engagement in this country has afforded American amusement seekers one of the treats of their lives.

As acrobatic eccentricities, they have every other act backed off the boards, and from the fun-making standpoint are a whole show in themselves. However, big as this feature is, which Manager Jamison has secured, there is another great comedy act, which runs it a neck-and-neck race—the Bellboy Trio—and between them they put up a jape of the mirthful stuff that will draw everybody to the local vaudeville house.

Concord grapes, 22 cents per basket at Homenway's.

Stratton Pavilion Dance

Director Fred G. Fink has arranged the following program of popular music for the regular dance at Stratton park pavilion tonight:

Waltz—"Wedding of the Winds"
Two-Step—"Hula-Hula"
Waltz—"Oriental Belles"
Two-Step—"Frat"
Waltz—"Alma, Where Do You Live?"
Two-Step—"Steamboat Bill"
Waltz—"Circus Rival"

HJT READY TO START WORK ON NEW CURBING

A delay in getting the cement tested and in securing the forms for the curbs and gutters, has delayed the preliminary work on the street paving, which A. Smith, subcontractor, was to have started yesterday. Smith has the contract for the curb and gutter work, sublet by the J. F. Hill Construction company of Chicago.

KIDS THE SYMPTOM OF SCROFULA

Scrofula is a disease usually manifested in childhood, though some who are victims of the loathsome disease of manhood before their life is any manifestation of the trouble; but no matter at what age it shows, the disease germs are in the blood, and until they are removed there can not be a healthy condition of the body.

The ordinary symptoms of Scrofula are swollen glands about the neck, scalp disease, skin affections, poor physical development, etc. S. S. S. has cured thousands of cases of Scrofula. It is the germ-killer of all blood purifiers, and by going to the source of the trouble and removing it, it creates a new blood, and the creation of new blood, S. S. S. makes a permanent cure. S. S. S. is a purely vegetable remedy, made entirely of the health-giving roots, herbs, and fruits, and is really a tonic for persons of any age, or those in delicate conditions of health. No one need fear to give S. S. S. to a child, following directions, and the health it will bring to frail, delicate children will be a blessing to the family.

If you or your child have Scrofula, write for our book on the blood and ask for any medical advice. No charge for either. S. S. S. is sold at drug stores, and is the only cure for Scrofula.

Colorado City DEPARTMENT

The school board will meet in regular session tonight.

Building Inspector A. D. Seale issued building permits amounting to \$4,000 last month.

Tom Leale and Jerry Connor were each fined \$5 and costs in police court yesterday morning.

A deaconess of the Methodist church has been employed to act as porter of the church at Woodland Park.

Ryan & Shaw of Manitou will open a picture show in the Real building, 410 Colorado avenue, the last of this week.

The Ladies Aid society of the Methodist church will not meet this week on account of the W. C. T. U. convention in Colorado Springs.

Miss Maude Wilson, who has been visiting Mr. and Mrs. J. D. Boone for the last few days, returned to her home in Idaho Falls, Ida., yesterday.

The Y. P. S. C. E. of the Congregational church will give a box supper in the basement of the church this evening. A special invitation is given to all young people.

The Rev. G. H. Stuntz, pastor of the Methodist church, expects his brothers, A. L. Stuntz of Greene, Ia., and H. C. Stuntz of New York city, to arrive in a few days for a short visit.

The funeral of Lewis F. Hesser, who died last Thursday afternoon, was held from the residence, 720 Lincoln avenue, yesterday morning at 10 o'clock, the Rev. Duncan Lamont officiating. Interment was in Fairview cemetery.

The regular monthly business meeting of the International League of the Methodist church will be held at the home of Lucile Hughes, 1137 Colorado avenue, tonight at 7:30 o'clock. The league will meet at the Methodist church at 7 o'clock and attend in a body.

Vernie Nelson is now acting chief of police, patrolman, city detective and everything else that goes to make up the day force of the police department in this city. Detective Charles Payne was dismissed from the force Sunday night, the three months for which he was put on expiring at that time. The council will probably take action upon the matter of putting another man on at the next meeting, which will be held Monday evening.

CARD OF THANKS

We wish to extend thanks to our many friends who so kindly assisted us in our great bereavement in the loss of husband and father.

MRS. L. P. RISSE
AND DAUGHTER

KNIGHTS OF COLUMBUS TO OBSERVE "DISCOVERY DAY"

"Discovery day" will be commemorated by the local council, Knights of Columbus, on Thursday. Celebration ceremonies will be held in St. Mary's Catholic church, in the morning, and in St. Mary's hall in the evening. High mass will be held at 8 o'clock Thursday morning, and in the evening Father Thomas H. Malone, Denver, will give an address. Special music will be provided by Joe Newman, character singer from Denver, and local musicians. Dr. J. F. McConnell of this city, state secretary of the order, will preside.

MRS. McCUTCHEON BURNED WHEN GASOLINE EXPLODES

Mrs. W. F. McCutcheon was painfully burned about the head and arms yesterday morning, and her home, 827 North Pine street, was badly damaged as a result of a gasoline explosion. Mrs. McCutcheon was washing clothes with gasoline, and the explosion resulted from the fumes coming in contact with heat from a stove in an adjoining room. Mrs. McCutcheon is an aged woman, but her injuries are not of a serious nature. There was about a \$50 loss to the home.

ELKTON DIVIDEND

An extra dividend of one-half a cent a share will be paid to the stockholders of the Elkton Gold Mining company, October 21, in addition to the regular one-cent dividend. All stockholders of record up to October 14 will receive checks.

INCREASED REVENUE MAY RAISE PAY OF FIREMEN

At today's meeting the council will probably be asked to act on the ordinance, drawn at the request of J. A. Himebaugh, commissioner of public safety, increasing the pay of the policemen and firemen. It is estimated that the city will have an increased revenue of about \$4,000 from taxes this year, and \$15,000 from liquor licenses.

How English Beauties Peel Their Faces

(From Society World)

While abroad recently I could not help observing that the average English woman's complexion is far more beautiful than that of the average woman of our country. As Mrs. Scott, secretary of the National Health Association, says, "The English woman's complexion is the result of a healthy condition of the body. The ordinary symptoms of Scrofula are swollen glands about the neck, scalp disease, skin affections, poor physical development, etc. S. S. S. has cured thousands of cases of Scrofula. It is the germ-killer of all blood purifiers, and by going to the source of the trouble and removing it, it creates a new blood, and the creation of new blood, S. S. S. makes a permanent cure. S. S. S. is a purely vegetable remedy, made entirely of the health-giving roots, herbs, and fruits, and is really a tonic for persons of any age, or those in delicate conditions of health. No one need fear to give S. S. S. to a child, following directions, and the health it will bring to frail, delicate children will be a blessing to the family. If you or your child have Scrofula, write for our book on the blood and ask for any medical advice. No charge for either. S. S. S. is sold at drug stores, and is the only cure for Scrofula."

It is not alone the convenience, or the freshness, or the crispness, or the unusual food-value, or the digestibility, or the cleanliness, or the price, that has made Unccda Biscuit the National Soda Cracker.

It is the remarkable combination of all of these things.

If everyone, everywhere, knew how good they are, everyone, everywhere, would eat them every day.

Sold by grocers in every city and town Bought by people of all classes.

Never sold in bulk always 5 cents in the moisture proof package which keeps them oven-fresh.

NATIONAL BISCUIT COMPANY

Personal Mention

S. T. McCracken has returned from a business trip in the east.

C. F. Arcularius has returned from a two week trip to World Lake.

E. W. Fink and E. J. "Doc" Denney are registered at the Astor hotel.

Mr. and Mrs. Frank Little have returned to Colorado Springs after a visit to the Antlers.

Mr. and Mrs. E. L. Richardson of Calgary, Alberta, arrived in this city yesterday to attend the International Dry Farming congress and the International Congress of Farm Women. They are stopping at the Antlers.

Mr. and Mrs. J. A. Williams of Denver are spending a week fishing in the Gunnison river, near Hondo.

E. E. Davis of Broadmoor, who has been with a hunting party at Middle park in Grand county, returned yesterday with a large buck, one of several secured by the hunters.

Rabbi Joseph Zeller, who recently arrived in this city, delivered a sermon at the Bore of Israel synagogue, Sunday.

Chief Clerkman, city clerk, returned yesterday from a business trip.

CRIPPLE CREEK MINES NEW YORK MARKET Your Neighbors Can Tell You

CRIPPLE CREEK, Oct. 9.—The production from the Maggie mine on Haven hill by Carl Johnson, owner of the Maggie Gold Mining Company, amounted to 200 tons during September, and the grade was the highest ever attained by the mine. The value of the ore shipped from the mine in the district, full returns are not yet at hand, but it is admitted by the management that the average value per ton will exceed two and one-half ounces gold, or better than \$50 to the ton.

From royalties paid the company a dividend at the rate of a half cent per share was paid stockholders of the owning corporation under date of September 31, the amount totaling \$6,325.

Red Bird Mine.
Jack Mansfield, contractor engaged in catching up the roller of the Red Bird shaft, will have the timbering completed by the end of the week, when active operations will be commenced by Van Dyne and associates, holding title under tax deed. The property was owned by the National Mining Tunnel and Land company, and is situated at the southern boundary of Cripple Creek city. The mine has produced high-grade ore, but of late has lain idle. The National company stock is widely scattered among small holders.

Stratton Leases Ship.
Van Thorg and Purvis operating block 22 of the Bull hill group of the Stratton estate, billed out a car of ore this week from the ore shoot under development at the 150-foot level. The ore is estimated at between \$30 and \$40 a ton. The block in question is located about 125 feet west of the main shaft on the American Justice claim.

C. O. Berry and Cripple Creek associates operating the Proper mine in Poverty gulch, owned by the Stratton estate, had a car set in at the C. O. D. shaft yesterday, and teams this morning are loading out a shipment for treatment at the Portland mill at Colorado City. The ore is taken from a new shaft recently opened in this old property, and is estimated at about \$35 a ton.

Chicken Hawk Shaft 1,000 Feet.
Contractor Strawn is completing the shaft at the 1,000-foot level on the Chicken Hawk shaft on Guyot hill, and will turn over the shaft to the Cripple Creek Mining and Development company, lessor from the Kalkins Gold Mining company, this week. Materials will be carried out at this depth by the leasing company, and it is confidently expected rich ore will be exposed in these the deepest workings on the hill.

FOR SALE—Real Estate
★
WHAT POLITICIANS ARE SAYING
Should have nothing to do with what you are thinking. If you have decided to buy a house, why change your mind simply because someone says there are hard times ahead? Invest in real estate, then you can not lose your savings, for come what will, the following is one of the most elegant and complete bungalow cottages in the city, and on its bought at greatly reduced figures on account of owner moving east; house consists of seven rooms and bath and is in good condition. Best of furniture, elegant electric fixtures, fireplace in drawing room, property located just off of Cascade and only two blocks from the college. Very pretty and well kept lawn, price only \$2,900.

Its Cold Cream Time

The first cold winds and frost bite and scratch your skin—if you give it a little extra care at this time you will have much less trouble during the winter.

A little of our "Colorado Cream" (liquid) rubbed well into the skin after washing will counteract the ill effects of winter's first frost. It is clean, clear, antiseptic, healing and pleasant to use.

City Notes

THE RED CROSS PHARMACY.
Phone 40. Open all night.

Dr. Mary Teague, Hagerman Bldg.

DR. STOUGH has removed his office to 302-303 Hagerman Building. Residence, Acacia hotel.

DANCING school tonight, Majestic hall. Private lessons by appointment.

BIRTH—A son was born to Mr. and Mrs. Charles Fred Arnold yesterday morning.

DR. AND MRS. C. N. SHELLENBERGER and N. H. Shellenberger have removed from Latria apartments to No. 4 Colchester apartments.

ARE your babies sick and puny when they should be well, with strong legs, back and arms and rosy, laughing faces? Let us help you make them strong. Electro-Thermatorium, 124 South Tejon St., Phone 1425.

BETLE BROS., Undertakers and Embalmers, 16 E. Kiowa, Phone 293.

LIGNITE COAL DOWN TO \$2.75 PER TON

The price of coal dropped from \$3.75 a ton to \$2.75 yesterday. This price is made on the best grade of lignite coal in the city. Cheaper grades have been reduced accordingly, and it is expected that still further cuts will be made in the price of all grades. No specific reason is given for the action by leading coal dealers of the city.

PINKERTON DETECTIVES GO BACK TO DENVER

J. W. Erb and A. C. Cole, Pinkerton detectives, have left Colorado Springs for Denver, announcing that they have abandoned work for the time on the Wayne-Burnham murder mysteries. They said that they expected to re-

JOHNSON & MURPHY AND RAISTON SHOES FOR MEN, JUST IN

gain later and continue their investigation.

If you have young children you have perhaps noticed that glandular or stomachic are their most common ailments. To correct this you will find Chamberlain's Stomach and Liver Tablets excellent. They are easy and pleasant to take and mild and gentle in effect. For sale by all dealers.
